

## **YourDrops Frequently Asked Questions**

### **1. Will EshopWedrop become listed on the Stock Exchange?**

*Our plan is to undergo a series of expected ventures with professional investment firms at significantly higher valuations over the next three years. Upon EshopWedrops satisfactory business maturity, we plan to list the EshopWedrop holding company on the UK or US Stock Exchange, which we estimate to be in around 5 years.*

### **2. What are the benefits of acquiring Shares from EshopWedrop?**

*Acquisition of Shares from EshopWedrop will enable you to become part of our vibrant community and to contribute towards our business growth. As our plan is to see EshopWedrop listed on the Stock Exchange in around 5 years, this may result in a nice exit for our shareholders.*

### **3. Will EshopWedrop buy back Shares?**

*Drops Members who become shareholders of an EshopWedrop holding company will have the ability to convert their shareholding after a period of one year, by swapping their shares into Drops with forecasted 25% premium gain. The purpose of this campaign was to create a community of dedicated and loyal customers who would participate in the expansion of EshopWedrop and therefore any speculative transactions of shares will not be allowed until the company is listed, except as the buy back mechanism described above.*

### **4. What is the minimum number of Shares I can acquire?**

*The minimum number of shares that can be obtained by one Drops Member will be 20.*

### **5. What is the maximum number of Shares I can acquire?**

*The maximum number of shares that can be obtained by one Drops Member will be 5,000.*

### **6. What are Dividends and will they be offered?**

*Dividends are the distribution of profits by a company to its shareholders. Being a technology focused company with significant forecasted growth over the next few years, it is probable that all profits (if any) will be invested in EshopWedrops continued growth and not distributed as dividends.*

*Once the company becomes profitable, it can be that part of the profit is distributed as dividends. It is important to note that shareholders will be entitled to dividends proportionally, with their shareholding on par with founders and any other shareholders.*

## **7. How much does a single Share cost?**

*Where the holding company of the EshopWedrop Group of Companies may seek to issue new ordinary non-voting shares, these will have a unitary value estimated at £8.00 GBP (Pound Sterling) or equivalent in other currencies.*

## **8. How can I use my Drops?**

*Drops can be used in the purchase of EshopWedrop shares. Our customers are able to pledge a maximum of 80 Drops per each share, meaning the minimum cash payment per each share would be £4.00, (or equivalent in other currencies).*

*For this campaign only, Reward Drops will have a value of £0.05 GBP, (or equivalent in other currencies) and this rule would apply for all countries where the campaign is running (including countries where Drops are valued in a different currency, as per the relevant Drops Rewards Programme).*

Should you have any further questions\*, please do not hesitate to get in touch with our Customer Support Teams who will assist with any inquiries you may have. Alternatively, you can [email us directly!](#)

*\*We strongly recommend that the YourDrops [Terms & Conditions](#) are read carefully to ensure that you fully understand the purpose and positions of this loyalty campaign, however EshopWedrop may make amendments to this document on an as needed basis for the education of its customers regarding this campaign.*
